

PRIYA SHARMA

Seattle, WA • (555) 456-7890 • p.sharma@email.com • github.com/psharma-dev • linkedin.com/in/psharma-tech

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript (ES6+), SQL, HTML/CSS
Frameworks & Tools: React.js, Node.js, Express, Django, Git/GitHub, PostgreSQL, Docker

EDUCATION

University of Washington — *B.S. in Computer Science* Expected Graduation: June 2027
Dean's List (All Semesters) | GPA: 3.91/4.00

SOFTWARE ENGINEERING PROJECTS

SmartStudy AI – Full-Stack Web Application React, Node.js, OpenAI API, MongoDB

- Built a web app enabling students to generate automated study flashcards from uploaded PDF notes.
- Implemented JWT authentication and RESTful API endpoints, reducing backend response latency by 20%.
- Deployed on Vercel/Render with over 400 active student users across campus.

Algorithmic Trading Bot Python, Pandas, Alpaca API

- Developed a momentum-based paper trading algorithm in Python analyzing real-time stock price data.
- Achieved an 11% backtested return over 6 months of historical data using Moving Average Crossovers.

EXPERIENCE

Undergraduate Teaching Assistant — *UW Computer Science Dept.* Jan 2026 – Present

- Conduct weekly lab sections and office hours for 60+ students in *Data Structures & Algorithms (CSE 373)*.
- Grade programming assignments in Java and provide constructive code optimization feedback.

Resume Strategy Tip:

Position a concise Technical Skills section at the top for immediate ATS scanning. Detail exact tools/technologies used in every project and quantify the performance or usage outcome (e.g., latency reduction, active users).
